**Liqui-Site Launches New Website for New Year**  
*Offers Fully Integrated Services in Social Media and Inbound Marketing*

(Nyack, NY) December 2, 2009 – Liqui-Site Designs, Inc. announced today that it has launched a new company website at ( [www.liqui-site.com](http://www.liqui-site.com) ).

The new web presence, which showcases a clear brand message for prospects interested in integrated, results-driven solutions for print or web. Not only is the new website completely optimized for the top organic rankings with robust, search-friendly content and URLs, the site features four interactive portfolios, a new blog for marketing tips at ( [www.liqui-site.blogspot.com](http://www.liqui-site.blogspot.com) ), customized social media pages on LinkedIn, Facebook, Twitter – utilizing custom tabs and RSS feeds on the latter two – and much more. With thousands of inbound links, the site is poised to secure top rankings for several relevant keywords within the next few weeks.

“Over the last two years, we’ve been busy working with clients to implement affordable, creative solutions to expand their demographic reach. Much of that work was focused on social media customization and integration, as well as inbound marketing tactics, including search engine optimization, content development, etc. We decided to develop a brand new website for Liqui-Site itself because our expertise has evolved aside the new marketing landscape. This new site will help us help more businesses and non-profits to achieve the kind of results they’re looking for,” said Kelly Campbell, Liqui-Site Designs, Inc.

Liqui-Site’s web clients and prospective web clients will find a full list of capabilities on the site, which now focus on social media, inbound marketing and driving qualified online traffic, affordably. For businesses looking to hire the “right” web development firm, this means that Liqui-Site handles all of the necessities in-house: web design, production, programming, search engine optimization, social media integration, inbound marketing, statistics integration and web maintenance.
